

ST HILDIES SPIKED TINCTURE TONICS

LOCATION
California

STORY St Hildies is based in Mill Valley, California. Think of it as a “Functional Ready-to-Drink Cocktail” with Fermented Sugar. St Hildie’s Spiked Tincture Tonics are elevated and effervescent, tart, crisp, tingly and lightly fruity. Made with Booze + Fizz + Botanical Tinctures + A Spritz of Real Juice + Magic (The magic comes from science-backed adaptogenic + nootropic tinctures that help support mood + experience).

“St Hildie” was a 12th century mystic, astrologer, & the mother of plant medicine. Currently, the St. Hildies team believes you should know what you are putting in your body, so they put our ingredients on the label where they belong, not hidden in the can.

INGREDIENTS These lightly-boozy botanical Tincture Tonics are crafted with real fruit, herbs & florals, and a support system of adaptogens & nootropics. Only real ingredients, nothing fake, a light, crisp answer to your cocktail-magic-hour dreams.

SELECTION Planet Wine currently offers the following flavors: Lemon Tumeric, Guava Ginger, Elderberry Hibiscus.

PAIRING Ideal with happy hour on the beach, in a park or on a boat. Drinks best when chilled.

Vegan - Gluten Free - Low Calorie - Low Carb
